1.0 Environmental Mission Statement

"To help our customers to communicate by harnessing emergent technology and adding value to their message through creativity, then delivering it through print media. We recognise that our processes may impact on the environment, and we are therefore committed to reduce significant negative impacts where possible, and also aim to improve the environment in which we live and work."

1.1 We have assessed our business activities and consider our main environmental impacts to be:

- Paper Waste generation and disposal
- Use of and storage of chemicals
- The consumption of Electricity
- Future development of factory extension

1.2 Pepper Communications Ltd is Committed to:

- Continually looking at material use and waste production in order to reduce its impact through using best available techniques where appropriate.
- Compliance with relevant legislation and other requirements relating to our business activities.
- To reduce energy use through better management and monitoring.
- Using processes, practices and materials to prevent pollution.
- The training and education of our staff and people working on behalf of the company to enable our environmental objectives to be achieved.
- Continual improvement in all areas of our business

We will manage our environmental commitment by incorporating this system into our business activities, regularly reviewing the system and by documenting the system and making it accessible to staff and the public.
